

Congratulations on the purchase of your new carbon neutral Hydropool HotTub or Swim Spa and for participating in the Hydropool Evergreen Commitment. Our Evergreen Commitment is truly a unique and impactful initiative in the fight against global warming. Now our customers can rest easy knowing that the environmental impact of a new Hydropool HotTub or Swim Spa is completely balanced off through emission-reducing Carbon Offset Projects. Your Hydropool HotTub or Swim Spa has been manufactured with a commitment to protecting the environment with one of our key initiatives being to neutralize the carbon emissions in partnership with LivClean.

Please note that as of September 2008, our manufacturing facility became 100% carbon neutral. Included in the Evergreen Eco-package are carbon offsets from emission reducing projects. The offsets balance out the amount of greenhouse gases created from both delivery and heating of the hot tub or swim spa making it truly Carbon Neutral – from the time your hot tub or swim spa leaves the factory and for as long as it is enjoyed.

Hydropool and LivClean have invested only in high quality emission-reducing projects that are independently verified and meet the standards of the **VOLUNTARY CARBON STANDARD** – an independent organization that provides a robust, global standard and approval program for voluntary offsets.

The World's First Carbon Neutral HotTubs and Swim Spas

Hydropool is committed to minimizing and neutralizing the carbon emissions from our manufacturing processes. Our lean manufacturing initiatives are constantly reducing the size of our carbon footprint. Our Carbon-Offsetting program ensures that we support environmental projects that neutralize the carbon emissions in our manufacturing processes.

The World's First C.E.C Approved HotTub and Swim Spa Manufacturer

Hydropool is committed to be on the leading edge of developing energy efficient technologies. Our unique Self-Cleaning, and DoubleThermal Shield Systems enable us to meet the rigorous energy efficiency standards of the California Energy Commission (C.E.C)

Reduce, Reuse, Recycle

Hydropool is committed to reducing the waste that we send to landfills. In addition to Lean Manufacturing initiatives which reduce and/or reuse waste materials we are also engaged in a corporate wide recycling program. Even the Everlast Cabinetry on our hot tubs and swim spas are recyclable.

Environmentally Responsible Printing

Hydropool is committed to using paper that comes from responsibly managed forests in order to protect wildlife habitats, to ensure clean water and to keep our forests healthy for generations to come. Therefore, all of our corporately produced posters and brochures are printed by companies certified by the Forest Stewardship Council (FSC) on FSC approved paper.

did you know...

that HYDROPOOL is taking the right steps to enhance your life in more ways than just a hot tub.

the ENVIRONMENT was the #1 concern of a majority of Canadians last year.

and HYDROPOOL is the only Carbon Neutral Hot Tub manufacturer in the world.

that CARBON NEUTRAL was the New Oxford American Dictionary's Word of the Year.

and HYDROPOOL is committed to minimizing and neutralizing the carbon emissions from our manufacturing processes.

a CARBON OFFSET is a measurable reduction, removal of carbon dioxide (CO2) or other greenhouse gas (GHG) emissions.

HYDROPOOL's Carbon-Offsetting program ensures that we support environmental projects that neutralize the carbon emissions in our manufacturing processes.

the UNIT OF MEASURE most commonly associated with carbon offsets is in tons of carbon equivalents (tCO2-e) or CO2 equivalents.

and HYDROPOOL is committed to be on the leading edge of developing energy efficient technologies.
